Sir:

This is in response to the Decision on Petition dated September 18, 2002 which
response is filed by November 18, 2002 for which no extension of time fees are due.

By said Decision, both petitions under 37 CFR 1.48(a) and 37 CFR 1.47(a)
were dismissed.

37 CFR 1.47(a)

In response thereto, attached herewith are re-executed Statements and a

37 CFR 1.48(a)

The reason for the dismissal of the Petition to accept the filing with a missing signature was that it was not clear what Declaration was sent to inventor Thomson, i.e., the one that identified inventor Thomson along with Amit and Joseph Itskovitz-Eldor, or with only Amit.

In response, the undersigned declares that the Declaration sent to inventor Thomson for his signature on April 25, 2002 and his employer the Wisconsin Alumni Research Foundation on April 24, 2002, identified only inventors Thomson and Amit therein.

In light of the anticipated granting of the Petition under 37 CFR 1.47(a), the Petition under 37 CFR 1.48(a) should be grantable pursuant to the Decision at page 4, lines 2 – 6.

I hereby further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application of any patent issuing thereon.

It is believed that no additional fees are due for this reconsideration request. Should such fees be necessary, authorization to charge Deposit Account 50-1407 is hereby given.

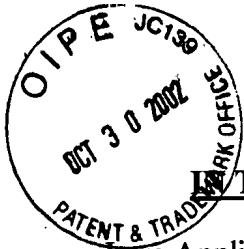

Respectfully submitted this 27th October, 2002
